PROFESSIONAL SUMMARY

Product Designer and UX/UI Designer with a comprehensive technical background (Design, Front-end, and Marketing). Specialized in creating end-to-end digital products, applying methodologies such as Design Thinking (Double Diamond) and Atomic Design to build scalable Design Systems. Proven experience in creating and launching open-source digital products with real impact, successfully retaining thousands of monthly active users. Strong ability to bridge art direction, user experience, and native development (HTML/CSS/JS) with a business-oriented approach (KPIs, CRO, and Agile methodologies).

PRACTICAL EXPERIENCE & FEATURED PROJECTS

Product Designer & Front-end Developer (Open Source Creator) Dec 2025 — Present

Aerko_ (Digital Application)

- Led the end-to-end product design of the application from its initial conception as a Master's Thesis to its full development and current maintenance.
- Applied the Design Thinking process (Double Diamond) for research and Atomic Design to structure a robust Design System.
- Developed the interface and front-end code (Vanilla HTML/CSS/JS, Web Components, Design Tokens), achieving over 50 stars on GitHub.
- Reached and maintained a base of ~3,000 monthly active users (MAU) organically, analyzing metrics to optimize retention and usability for future versions.

E-commerce Product Designer

Jan 2026 — Feb 2026

Entropy (Custom Shopify Theme)

- Designed and developed a custom theme for the Shopify platform, integrating UX best practices and Conversion Rate Optimization (CRO) strategies tailored for e-commerce.

UX/UI Designer & Art Director

Nov 2025

Sorolla Museum Web Redesign (Academic Project)

- Led the comprehensive art direction and user interface (UI) redesign to modernize the institution's visual identity.
- Designed wireframes and high-fidelity prototypes, restructuring the Information Architecture (IA) to improve navigation flows.

TECHNICAL SKILLS & AREAS OF EXPERTISE
